Make a Gratitude Journal

making a gratitude journal... This notebook is printed on a high quality 6X9 inch pages which makes is portable and easy to carry around with you, it comes in a soft cover; it contains 120 white lined pages that are fully customizable you can use stickers colors create boxes and planner schedules habit trackers, fitness logs, budget trackers The possibilities are endless you just have to unleash your creativity, each one of these journal comes with a wonderfor inspiring quote, to help you focus on your goals and push you further to achieve them, it' imply a motivational letter that you end to your self each day while planing your day, hope this journal will always keep you company in the journey of achieving your dreams

In the fall of 1992, in a small room in Boston, MA, an extraordinary meeting took place. For the first time, the sons and daughters of Holocaust victims met face-to-face with the children of Nazis for a fascinating research project to discuss the intersections of their pasts and the painful legacies that history has imposed on them. Taking that remarkable gathering as its starting point, *Justice Matters* illustrates how the psychology of hatred and ethnic resentments is passed from generation to generation. Psychologist Mona Weissmark, herself the child of Holocaust survivors, argues that justice is profoundly shaped by emotional responses. In her in-depth study of the legacy encountered by these children, Weissmark found, not surprisingly, that in the face of unjust treatment, the natural response is resentment and deep anger-and, in most cases, an overwhelming need for revenge. Weissmark argues that, while legal systems offer a structured means for redressing

Injustice, they have rarely addressed the emotional pain, which, left unresolved, is then passed along to the next generation-leading to entrenched ethnic tension and group conflict. In the grim litany of twentieth-century genocides, few events cut a broader and more lasting swath through humanity than the Holocaust. How then would the offspring of Nazis and survivors react to the idea of reestablishing a relationship? Could they talk to each other without open hostility? Could they even attempt to imagine the experiences and outlook of the other? Would they be willing to abandon their self-definition as aggrieved victims as a means of moving forward? Central to the perspectives of each group, Weissmark found, were stories, searing anecdotes passed from parent to grandchild, from aunt to nephew, which personalized with singular intensity the experience. She describes how these stories or "legacies" transmit moral values, beliefs and emotions and thus freeze the past into place. For instance, cdxmerged that most children of Nazis reported their parents told them stories about the war whereas children of survivors reported their parents told them stories about the Holocaust. The daughter of a survivor said: "I didn't even know there was a war until I was a teenager. I didn't even know fifty million people were killed during the war I thought just six million Jews were killed." While the daughter of a Nazi officer recalled: "I didn't know about the concentration-camps until I was in my teens. First I heard about the [Nazi] party. Then I heard stories about the war, about bombs falling or about not having food." At a time when the political arena is saturated with talk of justice tribunals, reparations, and revenge management, Justice

Matters Provides

valuable insights into the aftermath of ethnic and religious conflicts around the world, from Rwanda to the Balkans, from Northern Ireland to the Middle East. The stories recounted here, and the lessons they offer, have universal applications for any divided society determined not to let the ghosts of the past determine the future.

A RAND study analyzed Chinese and U.S. military capabilities in two scenarios (Taiwan and the Spratly Islands) from 1996 to 2017, finding that trends in most, but not all, areas run strongly against the United States. While U.S. aggregate power remains greater than China's, distance and geography affect outcomes. China is capable of challenging U.S. military dominance on its immediate periphery—and its reach is likely to grow in the years ahead.

Despite the increasing employment of manhunting, the U.S. national security establishment has not developed appropriate doctrine, dealt with challenging legal issues, nor has it organized forces and assigned clear responsibility to deploy and employ these capabilities. Manhunting could become an important element of future U.S. national security policy, as highly trained teams disrupt or disintegrate human networks. This monograph reviews historical cases related to manhunting and derives lessons from a large number of these historical manhunting operations. Building on these lessons, the monograph then explores potential doctrine, evaluates possible organizational structures, and examines how to best address the responsibility to develop manhunting as a capability for American national security.
