### Description Lesson

Objectives: 1.

Students will be able to examine how an object's potential and kinetic energy change as it moves and how an object's total energy remains constant. 2. Students will be able to determine the variables that affect an object's potential

Answer Key

~~Energy Skate Park~~

~~Basics Energy~~

~~Exploration~~

The mechanical energy of the skater doesn't change unless friction is turned on because kinetic energy + potential energy is equal to mechanical energy, this means that there

# Bookmark File

## PDF Energy

will always be the same amount of mechanical energy, regardless if there's more kinetic or potential energy.

### Energy Skate Park Simulation

~~Energy Skate Park Simulation by Alejandra Vargas~~

Students spend five minutes predicting

# Bookmark File
