After discovering a secret laboratory, three young teens are plunged into a mental state of subconscious reality by the machine invented by a world renown genius. Unfortunately, they have no way to reverse the process, which has left them trapped in an alternate dimension of time and space. Henry, Bonnie, and Freddie try to find help in a world beyond that which is known to humans. A place where fantasy becomes real and all things are magic. Their only hope of returning home is to find a reclusive hermit who dwells in a cave near the legendary, Valley of Orbs, a mythical place located at the base of the Alset Mountains. The valley was chosen by the Greek god, Prometheus as the birthplace of humans and emits powers beyond imagination. But before they can reach the mountains they must first survive the witches, demons, and fantastical beasts that roam the Elfin Forest and threaten their existence at every turn. They will need help along the way if they are to live through the cycle of the three full moons that awaken the spells and curses of the mystical island known as the Realm of Eternal Magic. First published by the Warburg Institute in 1958, this book is considered a landmark in Renaissance studies. Whereas most scholars had tended to view magic as a marginal subject, Walker showed that magic was one of the most typical creations of the late fifteenth and sixteenth centuries. Walker takes readers through the magical concerns of some of the greatest thinkers of the Renaissance, from Marsilio Picino, Giovanni Pico della Mirandola, and Jacques Lefevre d'Etaples to Jean Bodin, Francis Bacon, and Tommaso Campanella. Ultimately he demonstrates that magic was interconnected with religion, music, and medicine, all of which were central to the Renaissance notion of spiritus. Remarkable for its clarity of writing, this book is still considered essential reading for students seeking to understand the assumptions, beliefs, and convictions that informed the thinking of the Renaissance. This edition features a new introduction by Brian Copenhaver, one of our leading experts on the place of magic in intellectual history.

This book brings together ancient manuscripts of the large compendium of Mesopotamian exorcistic incantations known as Udug.hul (Utukku Lemnutu), directed against evil demons, ghosts, gods, and other demonic malefactors within the Mesopotamian view of the world. It allows for a more accurate appraisal of variants arising from a text tradition spread over more than two millennia and from many ancient libraries.
