### Handbook of European Societies Social Transformations In The 21st Century

European integration is one of the most ambitious and socially far-reaching developments in world politics and in world economics. Against growing opposition and despite increasing social heterogeneity, the European Union continues to expand and to acquire new competences. But to what extent is the self-proclaimed "ever closer union among the peoples of Europe" a social reality? In which ways is the political European project anchored in social developments? How does social change impinge upon political integration? Societal trends in multi-cultural, multi-ethnic, multi-lingual and socially diverse Europe have never been studied systematically. Handbook of European Societies: Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe, providing a groundwork for the sociology of European integration. The book portrays social life and social relations in the enlarged Europe, and gives a perspective on the European Union as an evolving social entity. Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent. It covers a representative selection of major topics of social concern and sociological relevance, such as Collective Action, Consumption, Identity, Power Structure, Sexuality, Stratification and Well-being. Each contribution probes key developments in a strictly comparative manner. The Handbook thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society. The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight-forward style. The contributions stay away from jargon, simple labeling and sweeping assertions. Instead, they provide solid and accessible information on a wide variety of social trends and processes within and across European societies

This book focuses on social transformations as one of the central topics in the social sciences. The study of European social transformations is very valuable in the context of universal discussions within social sciences: explaining invariable, universal attributes of societies and examining changing attributes. The book consists of 20 chapters on European social transformations, written from the perspectives of distinguished scholars from such disciplines as economics, political science, educational science, geography, media and communication studies, public management and administration, social psychology and sociology. The temporal and spatial range of the book is wide, including such global changes as time-space compression, focusing particularly on change processes in Europe during the last two decades. The book consists of four main parts, beginning with an overview of the theoretical and methodological approaches, and then focusing separately on post-communist transformations, institutional drivers of social transformations in the European Union, and European transformations in the context of global processes. The book presents current theoretical, empirical and methodological approaches that complement the scientific literature on social transformations. This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom and will be of interest to students, academics, and policy-makers studying how this diverse region has changed over recent years.

This Handbook will comprise of 29 original pieces from key contributors to the field of European social policy. It is intended to capture the ‘state of the art’ in European social policy and to generate and contribute to debates on the the future of European social policy in the 21st Century. It will be a comprehensive and authoritative resource for research and teaching covering themes and policy areas including social exclusion, pensions, education, children and family, as well as mobility and migration, multiculturalism, and climate change.

The Routledge Handbook of European Sociology explores the main aspects of the work and scholarship of European sociologists during the last sixty years (1950-2010), a period that has shaped the methods and identity of the sociological craft. European social theory has produced a vast constellation of theoretical landscapes with a far reaching impact. At the same time there has been diversity and fragmentation, the influence of American sociology, and the effect of social practice and transformations. The guiding question is: does European Sociology really exist today, and if the answer is positive, what does this really mean? Divided into four parts, the Handbook investigates: intellectual and institutional settings regional variations thematic variations European concerns. The Handbook will provides a set of state-of-the-art accounts that break new ground, each contribution teasing out the distinctively European features of the sociological theme it explores. It will be of interest to students and scholars across the social sciences and humanities.

This innovative publication maps out the broad and interdisciplinary field of contemporary European social theory. It covers sociological theory, the wider theoretical traditions in the social sciences including cultural and political theory, anthropological theory, social philosophy and social thought in the broadest sense of the term. This volume surveys the classical heritage, the major national traditions and the fate of social theory in a post-national and post-disciplinary era. It also identifies what is distinctive about European social theory in terms of themes and traditions. It is divided into five parts: disciplinary traditions, national traditions, major schools, key themes and the reception of European social theory in American and Asia. Thirty-five contributors from nineteen countries across Europe, Russia, the Americas and Asian Pacific have been commissioned to utilize the most up-to-date research available to provide a critical, international analysis of their area of expertise. Overall, this is an indispensable book for students, teachers and researchers in sociology, cultural studies, politics, philosophy and human geography and will set the tone for future research in the social sciences.

This comprehensive textbook provides a thorough analysis of the nature of European societies across the expanded EU member states. It address a range of issues relating to Europeanisation and key topics such as inequality, migration, poverty, population and family, the labour market and education.

The Routledge Handbook of EU-Russia Relations offers a comprehensive overview of the changing dynamics in relations between the EU and Russia provided by leading experts in the field. Coherently organised into seven parts, the book provides a structure through which EU-Russia relations can be studied in a comprehensive yet manageable fashion. It provides readers with the tools to deliver critical analysis of this sometimes volatile and polarising relationship, so new events and facts can be conceptualised in an objective and critical manner. Informed by high-quality academic research and key bilateral data/statistics, it further brings scope, balance and depth, with chapters contributed by a range of experts from the EU, Russia and beyond. Chapters deal with a wide range of policy areas and issues that are highly topical and fundamental to understanding the continuing development of EU-Russia relations, such as political and security relations, economic relations, social relations and regional and global governance. The Routledge Handbook of EU-Russia Relations aims to promote dialogue between the different research agendas in EU-Russia relations, as well as between Russian and Western scholars and, hopefully, also between civil societies. As such, it will be an essential reference for scholars, students, researchers, policymakers and journalists interested and working in the fields of Russian politics/studies, EU studies/politics, European politics/studies, post-Communist/post-Soviet politics and international relations. The Routledge Handbook of EU-Russia Relations is part of a mini-series Europe in the World Handbooks examining EU-regional relations established by Professor Wei Shen.

Since the Treaty of the European Union was ratified in 1993, the European Union has become an important factor in an ever-increasing number of regimes of pooled sovereignty. This Handbook seeks to present a valuable guide to this new and unique system in the twenty-first century, allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national polities to Europe and the global community. Adopting a pan-European approach, this Handbook brings together the work of leading international academics to cover a wide range of topics such as: the historical and theoretical background the political systems and institutions of both the EU and its individual member nations political parties and party systems political elites civil society and social movements in European politics the political economy of Europe public administration and policy-making external policies of the EU. This is an invaluable and comprehensive resource for students, scholars, researchers and practitioners of the European Union, European politics and comparative politics.

""This book examines institutional, economic, and social developments in the European Union"--Provided by publisher"--

This Handbook maps the expanding field of gender and EU politics, giving an overview of the fundamentals and new directions of the sub- discipline, and serving as a reference book for (gender) scholars and students at different levels interested in the EU. In investigating the gendered nature of European integration and gender relations in the EU as a political system, it summarizes and assesses the research on gender and the EU to this point in time, identifies existing research gaps in gender and EU studies and addresses directions for future research. Distinguished contributors from the US, the UK and continental Europe, and from across disciplines from political science, sociology, economics and law, expertly inform about gender approaches and summarize the state of the art in gender and EU studies. The Routledge Handbook of Gender and EU Politics provides an essential and authoritative source of information for students, scholars and researchers in EU studies/ politics, gender studies/ politics, political theory, comparative politics, international relations, political and gender sociology, political economy, European and legal studies/ law.
