Giacomo Leopardi - Canti (trans Jonathan Galassi) Despite being considered one of Italy's greatest poets, Leopardi is not well known in the United States. Indeed, I naively bought this book thinking he was a contemporary Italian poet, only to learn his dates were actually 1798-1837.

In the two canti, the concept of "excessive" or "over-civilization" which is deleterious for life and beauty first makes its appearance. In the poem All'Italia, Leopardi laments the fallen at the Battle of Thermopylae (480 BC, fought between the Greeks under Leonidas and the Persians under Xerxes), and evokes the greatness of the past.

Il quarto libro de madrigali a cinque voci, the fourth of six books of madrigals by the Florentine composer Marco da Gagliano, was published in 1606. The book is distinguished by the excellence of its music as well as by its varied settings of texts by some of the most celebrated poets of the day. Five of the madrigals use texts by Giovanni Battista Guarini, three by Giambattista Marino, one each by Gabriello Chiabrera, Cosimo Galletti, and Alsaldo Cebà, and a final two-part madrigal for six voices sets a sonnet by the great fourteenth-century poet Francesco Petrarca. In addition to fourteen madrigals by Gagliano,

the book contains three by guest composers Luca Bati and Giovanni and Lorenzo Del Turco. Gagliano's madrigals in book 4, in contrast with those of his earlier books, are lighter and show the clear influence of the contemporary canzonetta, which is manifested in their brevity; the discrete sectioning of the music, frequently with concurrent rests in all the voices that separate the presentation of individual poetic lines; the omnipresent syllabic setting of words; and the simpler and shorter motives that are most often presented in a homophonic texture. In some of these madrigals, motives shaped by the melody and rhythm of spoken language might serve well in monodies. Indeed, in his magisterial study of the madrigal, Alfred Einstein went so far as to suggest that some of these madrigals have the effect of polyphonic, imitative arrangements of Florentine monodies.

A New York Times Notable Book for 2011 Giacomo Leopardi is Italy's greatest modern poet, the first European writer to portray and examine the self in a way that feels familiar to us today. A great classical scholar and patriot, he explored metaphysical loneliness in entirely original ways. Though he died young, his influence was enormous, and it is no exaggeration to say that all modern poetry, not only in Italian, derives in some way from his work. Leopardi's poetry is notoriously difficult to translate, and he has been less well known to English-language readers than his central significance for his own culture might suggest. Now Jonathan Galassi, whose translations of Eugenio Montale have been widely acclaimed, has produced a strong, fresh, direct version of this great poet that offers English-language readers a new approach to Leopardi. Galassi has contributed an informative introduction and notes that provide a sense of Leopardi's sources and ideas. This is an essential book for anyone who wants to understand the roots of modern lyric poetry.

This contributed volume is a collection of international writings on dance, human rights, and social justice in the 20th and 21st centuries. The book illuminates and analyzes dance in contexts of oppression and its subversion, as well as in situations promoting access to dance, and those encouraging healing from human rights abuses through movement.
