Sarcs Macroeconomics In The Global Economy

These findings raise a number of fundamental questions for ecological macroeconomics, which has been relatively silent about the prospects for the global sustainability transition in an open economy context (Guarini and Porcile, 2016). By focusing primarily on wealthy, industrialized nations in the closed economy, available models likely project overly optimistic scenarios for global climate ...

The world economy is experiencing a corrosion of globalization. The web of economic and commercial ties across the world is fraying, with more frequent and larger gaps in it—even as trade in goods, services, and technology shifts locations and in some places grows. For globalization is multidimensional, encompassing much more than international trade, though panic about trade gets most of the political and press attention.

Economy - BBC News

While globalisation has led to the convergence of more developed economies, many argue that the welfare gap between the more and less developed economies is growing. 'Global economics' looks at how trade has shaped the global economy and considers the costs and benefits of free trade - it also provides an analysis of the major problems facing the global economy in the 21st Century, and provides an analysis of the financial crisis and the rise of powerful trading blocs.
