Nonelectronic Parts Reliability Data (NPRD) provides failure rate data for a wide variety of component types including mechanical, electromechanical, and electronic assemblies. It provides summary and detailed data sorted by part type, quality level, environment and data source. The data contained in this database represents a compilation of field experience in military, commercial, and ...

RAM Commander incorporates the NPRD-2011 (Non-electronic Parts Reliability Data) reliability prediction method. This method is applied to mechanical and other non-electronic parts. NPRD database contains information on failure rates for various non-electronic parts keyed by part family, Item type, part description, environment and quality level.
